

## Corporate Overview

Over 30 years of experience supporting commercial and federal customers achieve the goal of protecting equipment assets without compromise to safety or the environment. We currently work with Department of Veteran’s Affairs, Department of Commerce, Navy, NOAA, GSA and Airforce. With experience in both waste and potable water, WTS | First Defense has saved customers several million dollars in equipment repairs alone. Careful attention to detail increases reliability for our customers.

WTS | First Defense utilizes industry best practices for compliance to local & state laws and environmental regulations. Our employees understand the need for timely response and accurate reporting and act accordingly. We incorporate a philosophy that honorable, truthful, and reliable behavior is essential in all actions.

WTS | First Defense offers solutions that make sense and save money. Genuine desire for our customers to succeed drives our everyday actions; **we are your trusted partner.**

## Past Performance

- Real-time service reports and feedback resulting in immediate adjustments and cost savings.
- Attention to detail, communication preventing unnecessary shut-downs and replacement of equipment rental.
- Zero chemical run-out, timely order processing, assigned technician for equipment familiarity.
- Experienced technicians and excellent corporate support.
